Colombo, Sri Lanka

Profile Summary

Full Stack Engineer with 1 year of professional experience delivering reliable and user-focused software solutions. Strong in problem-solving, effective communication, and cross-team collaboration. Recognized for the ability to work under pressure, meet tight deadlines, and adapt quickly to new tools and technologies. Committed to continuous learning and professional growth, with a focus on building efficient, scalable, and maintainable applications that align with business goals.

Technical Exposure

- **Programming Languages** - JavaScript, TypeScript, Java, C#, C, C++, PHP
- **Frameworks** - React.js, Node.js, Express.js, Next.js, Nest.js
- **Markup and Styling** - HTML, CSS, Tailwind CSS, Ant Design, Bootstrap
- **Databases and ORMs** - MySQL, PostgreSQL, MongoDB, PrismaORM, TypeORM
- **Authentication Providers and Methods** - Auth0, JWT Authentication
- **Cloud Technologies** - AWS
- **Containerization** - Docker
- **Version Control Systems** - Git, GitHub, GitLab
- **Testing Tools** - Jest, SonarLint
- **CI/CD and Automation** - GitHub Actions
- **Development and Collaboration Tools** - Postman, Swagger API, Jira, Figma

Experience

- **Kingteza Software Solutions (Pvt) Ltd** Jul 2024 - Jan 2025
Associate Software Engineer - Contract Rajagiriya, Colombo
 - Engineered a FIFO-based notification system using AWS SQS and the Serverless Framework to process ordered messages daily, leveraging AWS CloudWatch for log monitoring and debugging
 - Created responsive and user-friendly interfaces using Next.js, integrating 50+ front-end components with back-end services via Axios for seamless data communication
 - Built scalable back-end endpoints using Nest.js, and used PrismaORM for designing database schemas and managing operations across 10+ models
- **Itelasoft (Pvt) Ltd** Nov 2023 - May 2024
Software Engineer - Intern Mirihana, Colombo
 - Researched the Clean Architecture principle applied to a Node.js application and implemented a full-stack project, enabling over 50% faster unit test implementation and provided feedback on development standards
 - Formulated unit test cases using Jest, aiming for a test coverage of over 85% to ensure code reliability and maintainability
 - Explored Docker and containerized front-end and back-end applications, streamlining local development and laying the foundation for faster and more scalable deployments

Education

- **University of Colombo School of Computing** May 2021 - Oct 2024
BSc. Computer Science | 3.36 - Second Class Upper Division
- **Southlands College Galle**
G.C.E. Advanced Level (2019) - Combined Mathematics: A | Physics: B | Chemistry: C

Projects

- **Winlads: Rewards-Based Shopping Tool**

Tools: React.js, Next.js, Nest.js, TypeScript, Tailwind CSS, PostgreSQL, PrismaORM, AWS, Serverless Framework

- Delivered production-ready front-end and back-end components within a Microservice Architecture and contributed to the development and deployment of scalable cloud-based solutions as an Associate Software Engineer at Kingteza

- **Sense and Science: Blog Post Application**

Tools: TypeScript, Next.js, Tailwind CSS, Firebase, Figma

- Designed and pioneered front-end user interfaces, with 100% contribution, optimizing user experience and boosting interaction through responsive design

- **Aura: Community Health Net**

Tools: HTML, CSS, JavaScript, PHP, MySQL, Stripe, JWT Authentication

- Served as Team Leader for a university 2nd year group project, facilitating collaboration through knowledge sharing, progress check-ins, and documentation, while actively contributing to building the project

- **Clarix: AI Chatbot - Inspired by DeepSeek**

Tools: Next.js, Tailwind CSS, DeepSeek-R1 model via OpenRouter API, MongoDB, Clerk, Vercel

- Developed a fully functional chatbot built using cutting-edge web technologies, integrated with DeepSeek-R1 via OpenRouter

- **Online Shopping Cart**

Tools: React.js, TypeScript, Tailwind CSS, Node.js, Express.js, MySQL, TypeORM, Auth0, Jest, Docker

- Implemented an individual full-stack project, applying Clean Architecture principles to enhance system maintainability and test coverage

Certifications

- **IJSE - Institute of Software Engineering**

- The Diploma in Comprehensive Master Java Developer

- **Coursera**

- Introduction to front-end development
- Programming with JavaScript

- **Postman**

- API fundamental student expert badge

- **KodeKloud**

- Docker Training Course

- **LinkedIn**

- CSS advanced layout with grid
- Learning JavaScript Language

Extra Curricular Activities

- **CompSoc - UOC**

Web Development Team

- Created the front-end of the blog platform, enhancing user experience and functionality
- Coordinated with the Organizing Committee of the APAN56 - 24 hours Datathon

- **Peocode - UCSC**

Web Development Team

- Designed and delivered comprehensive web development content, supporting team growth and skill-building

- **Rekha Music Circle - UCSC**

Orchestra

- Showcased musical talent as both a violinist and a vocalist in university events

- **Rotaract Club - UCSC**

Club Service Avenue

- Monitored and guided club service initiatives to enhance member engagement and involvement
